About the Seminar:

Although the rights of transpeople are protected by a range of international and regional mechanisms, yet punitive national laws, policies and practices targeting transgender people regarding the complex procedures for changing identification documents strip them of their rights and limit them the access justice, resulting in gross violation of human resource. According to Transgender Persons (Protection of Rights) Act 2019- by Transgender person is meant" A person whose gender does not match with the gender assigned to that person at birth and includes trans-man or trans-woman, the person with intersex variations, gender, queer and person having such socio-cultural identities as kinner, hijra, aravami and jogta".

By trans rights we mean the right to exist without fear of harassment, violence and discrimination simply because of being a transgender.

Objectives of the Seminar:

- An attempt to create a society so that they can walk down the street without inappropriate comments, stares and general transphobia.

- Attempting to create awareness in the society for the same right as us to visit the grocery store, bank, restaurants and other businesses without discrimination.
- Accepting them as they are and letting them lead a normal life.
- Creating awareness in society so that they can easily avail health care facilities and judicial services of the country.
- To educate ourselves, our family and friends on Trans Rights.
